

# SC Remote App(PanelAgent) Features Improved

[Released February, 2026]

PanelAgent for Android 1.15.0

PanelRemoteExtension 1.0.0.9

We now support file transfer, remote view, and remote control for Android OS 15.

**This update is to comply with Google's requirements (API level 35 or higher). The currently released version (v1.14.1) also works on Android OS 15. Reinstallation is not required for devices already running.**

Please download and install the APK file from Google Play or the download site below.

## <Download Site>

<https://remote-download.smartconstruction.com/download/>

TD520/M10 (Android)

- **PanelAgent 1.15.0** → A remote connection app that enables remote viewing and file transfer.
- **Remote Control Extension 1.0.0.9** → An extension application for remote control.

## <Notes>

On **Android OS 14 later**, due to OS restrictions, only **one remote connection** can be established at a time. Multiple simultaneous remote connections are **not supported**.  
(On **Android 13 and earlier**, up to **three remote connections** can be established simultaneously.)
